## Product Description:

While planning to buy a semi-SLR digital camera, we want to price to be the minimum and the features to be the maximum. The 24mm wide angle of view allows you to capture stunning landscape images and using the 30x Optical Zoom, the focal length at 720mm enables you to experience the fun of telephoto photography. Furthermore, the 16 megapixels produces images of very high resolution and the DIGIC 4+ image processor produce the images with rich details.

This beautiful light weight semi-SLR digital camera consists of an Eco mode, which saves a lot of battery for extended clicking hours. Moreover, the 3.0 inch LCD instantly displays the images that you click and the face detection technology always keeps the subject in focus.

Apart from these advanced features, this [Canon Camera](#) comes with the ISO sensitivity of 100-1600 where low light will never turn up to be an obstacle in your photography. The best feature that Canon's SX400 incorporates is the Optical Image Stabilizer, which produces blur-free images and enables you to capture long distant objects with fine details.

In case, you want to go beyond the boundaries of clicking, the Movie button allows you to record your favourite HD video with bright resolution. This product by Canon, which is also available in Red colour, comes with 2 year Canon India warranty.
